

Middle School Summer Assignments

Hello Pioneer Middle School,

As we at Pioneer Academy are always striving for growth and excellence, we find it essential to practice fundamental skills over the summer months. With that, students are expected to complete a series of summer assignments in each of the four core classes: Math, ELA, Science, and Social Studies. These assignments are intended to reinforce concepts learned during the previous year and aimed towards preparing students for a quick and successful transition into the next grade. To encourage students and families to take the assignments seriously, all middle school core teachers will count their respective summer assignments as a graded assignment for the first marking period.

To successfully complete these, students must login to Google Classroom.
The Google Classroom codes can be found below:
